

Lawton Senior High School is the *Home of Champions*. Our tenacious nature makes it disagreeable to us to be named to the Oklahoma State School Improvement list. We have decided to view this temporary status as an opportunity to visit all aspects of our school culture. As a progressive, forward-thinking organization, we are single-minded in attacking the challenges that lay before us. Therefore, in addition to developing a plan of action focusing on the participation deficiency, strategies have evolved as pro-active, rather than reactive measures for all students and sub-groups in reading and mathematics.

Our School Improvement Plan was initially cultivated in faculty meetings where input was encouraged. The value and significance of this collaboration continues to be evident throughout this process. Ownership of this plan was essential; consequently, all stakeholders continue to have a voice through department meetings, specialized committee meetings, PTSA, parent meetings, and administrative meetings all aimed at raising student achievement.

We have a vested interest and a moral obligation to not only meet, but also exceed the needs of our students. This is our primary mission. We believe in our students, and each other; therefore, no limits will impede our resolve.

Mission Statement

We believe in our students and each other.

Vision

"Sans limites"
